

Monitor a BVRD2M DVA message

Product Range:	VIGIL2
Product Code (if applicable):	BVRD2M / BVRD2M4
Description of activity:	Monitoring a DVA message on a BVRD2M EVAS router
Description of likely fault(s):	Not related to a fault condition

IMPORTANT - this product forms part of a life-safety system

Please Note: Periodic inspection and servicing needs to be carried out by a competent person with specialist knowledge of VASs, relevant current training and experience, and with adequate access to spares and sufficient information regarding the system. (BS5839-8).

Description of rectification works:

1. To monitor a DVA message on a BVRD2M router go to the front of the router
2. Turn the key to the right and press the select button with the cursor flashing under MONITOR
3. The screen should show an Input, push/click the encoder dial inwards till it shows the display shows DVA
4. Once displaying DVA it should play the selected message, for example DVA 001 would play an EVAC. The message will play through the Router front panel speaker only.
5. To scroll through messages, turn the encoder dial clockwise to go through the message bank
6. If listening to the DVA and you want to increase the sound from the router press right on the select keys to highlight the dB levels and increase with encoder dial.
7. Once finished turn key to come out of monitoring mode.

If at any point you wish to return to the beginning of the process and start again, simply turn the key to the left to exit the home screen.
