- 1 - Essential:** Action is Recommended
 - 2 - Important:** Product Form / Fit / Function has been changed (may affect compatibility)
 - 3 - General:** For information / reference
 - 4 - Obsolescence:** Notification of Component or Product Obsolescence
-

DESCRIPTION

The BFMxx range of analogue Fire Microphones was manufactured between 1998 and 2008.

We can confirm that due to component obsolescence we can no longer offer service support for these products as the support end date was **1st August 2018**. Please be aware that these products may not be repairable should they fail.

COMPATIBILITY

Due to the BFMxx Fire Microphones no longer being supported from 1st August 2018 Baldwin Boxall suggests consideration / risk assessments are carried out at any sites that utilise the BFMxx.

It should be possible to replace a BFMxx microphone with a BFM4xx microphone, installed with a BDM400IF interface module.

We would welcome the opportunity to discuss this with you in more detail.

If you require any further information please feel free to contact us.
