## DESCRIPTION

Baldwin Boxall has released an updated version of the VIGIL EVAS Config Software (for BVRD2M & BVRD2M4) version 1.31.

## ISSUES FIXED

This updated version of the configuration software is a bugfix release (there was an issue with the slider controls in V1.30). There are no other changes to the software. This version includes "Digitally Signed Drivers".

## DRIVER INSTALLATION INSTRUCTIONS

Install the Configuration Software.  
Run the software ensuring "Run As Administrator" is selected.

After connecting the BVRD2M to the host computer using the USB cable the system goes to the 'Control Panel' and click on "Device Manager" then select "Other devices" and double click "Vigil2 EVAS BVRD2M", then click on "Update Driver".

Click on 'Browse my computer for driver software' and find the installation directory in which the program was installed, which by default is:

"C:\Program Files\VIGIL EVAS BVRD2M\USB files\Win 7" (For Windows 7 or 8) or  
"C:\Program Files\VIGIL EVAS BVRD2M\USB files\Win 10" (For Windows 10).

Click “Ok” and the driver will be installed.

In Windows 7 a message will pop up confirming that the driver is from Baldwin Boxall, simply click on “Continue” and the driver will be installed.

The VIGIL2 EVAS BVRD2M will now appear in 'Baldwin Boxall Devices'.
