TECHNICAL BULLETIN

BBTB Date:	**04 April 2022**
BBTB Number:	**BBTB-081**
BBTB Title:	**BVRD2M Firmware Update**
System Description:	**VIGIL2 VA Systems**
Product(s) Affected:	**BVRD2M**
Reference:	**ECR4599**
Priority:	**3**

1 - Essential: Action is Recommended

2 - Important: Product Form / Fit / Function has been changed (may affect compatibility)

3 - General: For information / reference

4 - Obsolescence: Notification of Component or Product Obsolescence

DESCRIPTION OF THE PROBLEM

Baldwin Boxall has discovered a minor bug with the BVRD2M Front Panel firmware where FT=N was set back to FT=Y if the key was turned back to the "normal" position.

RESOLUTION

The following firmware update has been released: BVRFP V3.2

SUGGESTED ACTION

No immediate action is required as this release is compatible with other module Firmware versions.

Please note however site wide firmware must match (i.e. all BVRD2M units on a given site must run the same firmware). If a replacement unit is supplied or an expansion is performed on an existing site then please ensure the firmware on the new module matches firmware on any existing units.
