---

**1 - Essential:** Action is Recommended

**2 - Important:** Product Form / Fit / Function has been changed (may affect compatibility)

**3 - General:** For information / reference

**4 - Obsolescence:** Notification of Component or Product Obsolescence

---

## NOTICE OF CHANGE OF CONNECTORS

Baldwin Boxall will be implementing a change to the connectors used in our PA/VA and EVC range of products, progressively moving from “Blue” connectors to “Green” connectors.

This change is due to component obsolescence and the global component shortage and will allow us to use a more standardised and readily available range of connectors.

The connectors are form, fit and function identical and compatible with each other so there are no issues connecting a Green plug into a Blue socket and vice versa.

*Figure 1 — Example of “new” green connectors and “original” blue connectors*
