

# VIGIL2 Longline Network Hub

Certified to BSEN54  
Compliant to BS5839-8:2013

BVRDMHUB

The BVRDMHUB enables remote connection of the BVRDTSM touch screen microphone to the VIGIL2 voice alarm system.

Ideal for sites where VIGIL2 voice alarm system control is to be located in a remote building on the same site - i.e. Gatehouse.

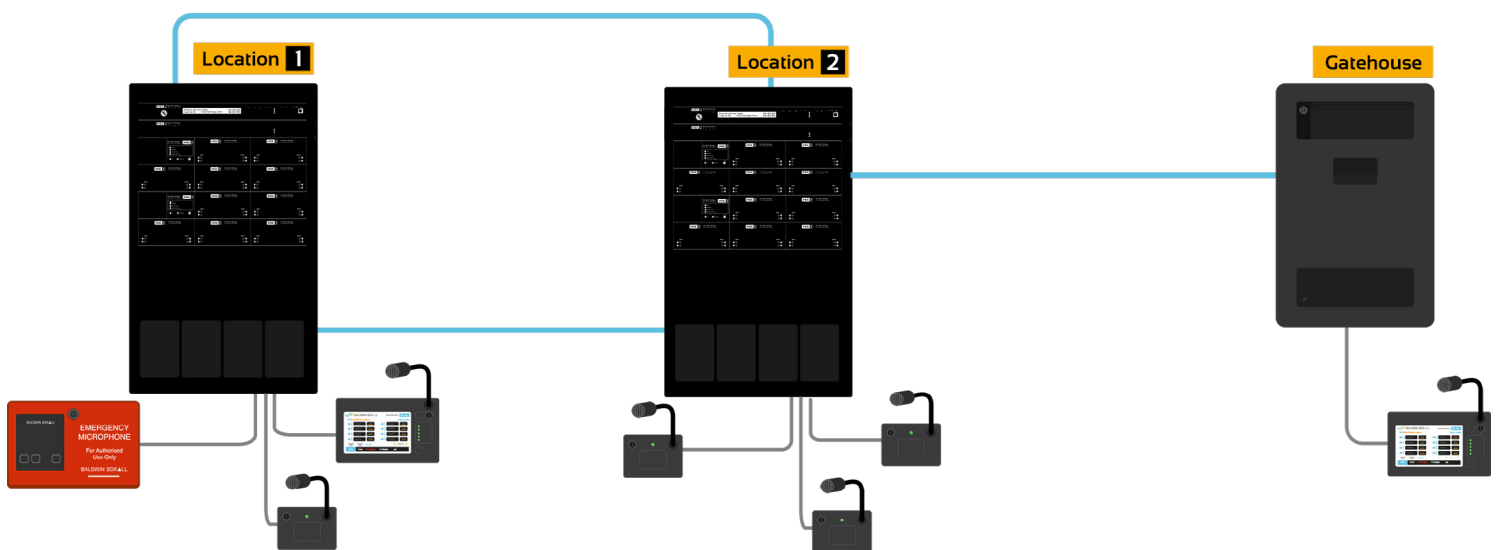

BVRDTSM

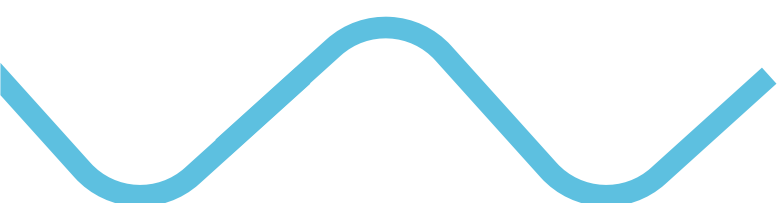

## VIGIL2 Network Hub

### HUB FEATURES:

- The BVRDMHUB is connected to the VIGIL2 voice alarm network via the [BVRDNET](#) module - enabling distance connection via multi-mode or single-mode fibre. (Refer to [BVRDNET datasheet](#) for more information.)
- Slimline unit which houses backup batteries to ensure operation is possible in case of a mains power failure (typically 24 hours quiescent and 30 minutes full use).
- Connects directly to a full-featured BVRDTSM touch screen microphone. (Refer to [BVRDTSM datasheet](#) for product details).

NB: the BVRDMHUB is designed specifically for VIGIL2 and, therefore, it is not suitable for VIGIL3 systems.
