Large Format Touch Screen

Linked to a BVRDTSM microphone, the new BVRDTSMMON large format touch screen enables graphical control of a voice alarm system without the need for a PC.

Fully configurable and an easy to use solution for stylish voice alarm system control.

VIGIL 3

BENEFITS & FEATURES:

- The BVRDTSMMON, once configured, enables full graphical control of a voice alarm system.
- No PC, or interface, is required - the touch screen monitor plugs directly into the back of the touch screen microphone (the BVRDTSM).
- Completely configurable - design your own screens and layouts. The system can be configured and setup completely without the need for specialist tools or knowledge, no programming is required.
- Installers and system integrators have the ability to:
  - Design multi-layer graphical user interfaces for even the most complex of installations.
  - Import floor plan graphics or wallpapers.
  - Add and move link buttons to navigate between layers to enable 'drill down' user interfaces.
  - Add, move, re-size and re-name zone buttons when the customer's requirements change.
  - Add, change, customise volume controls as required.
  - Add group buttons to automatically select multiple zones as required.
  - Add additional graphics such as company logos, telephone/support numbers, and more.
- Easy to use - once configured, the BVRDTSMMON solution is simple and intuitive to use allowing access to all of the touch screen microphone (BVRDTSM) functions including:
  - General paging, users can select zones graphically on the large format touchscreen or via buttons on the smaller BVRDTSM touchscreen.
  - Emergency paging, when in emergency mode the BVRDTSMMON is disabled and the user operates the EN54 approved BVRDTSM user interface for simplicity and complete reliability in an emergency situation.
  - Non-emergency message scheduling and play back to any/all zones.
  - Background music routeing to any/all zones.
  - Full time and date stamped system fault logs enabling easy diagnosis.
  - Time and date stamped user activity logs providing an audit trail when required.
  - Easily change volume level for a given zone.
- BVRDTSMMON dimensions (mm) 390H x 510 W x 230D.
- BVRSTSM dimensions (mm) 40H (plus gooseneck) x 270W x 230D.
